

HOA PATRON MEMBER PROGRAM 2018

The **Hungarian Service and Outsourcing Association** offers a new opportunity for its members and partners to take part in the **HOA PATRON MEMBER SPONSORSHIP PROGRAM**.

We created this sponsorship program as a channel with which the Association's members can support the activities of HOA. We aim to strengthen our cooperation based on mutual advantages as well as our business interest representation, so that HOA's lobbying power and impact in expert position-making is enhanced. Using these sources we would like to improve our professional activity, certification system and the communication between our members at the HOA-organized events amongst many others.

The program offers sponsorship opportunities for its participants with which they can get special featured appearance in addition to the Association's basic services.

Details of the Patron Membership services and fees are given below:

If you are interested in participating please do not hesitate to contact our colleagues at:
